

Passage 18

Education has a significant place in the development of man. Education develops a man mentally and morally. Without Education man is like an animal. It is very necessary that men and women should get education uniformly. If the women are not to be educated, half of our society will remain backward. In these days, we can see the better results of women education in the different parts of the world. As a result of it so many bad customs and superstitions have started disappearing this society. Women have been working unitedly with men in every sphere of national development and doing equal responsible works.
